Liquidation Program Profitable

Borough Spends \$42,990 to Bring in Revenue of \$184,287-Plus Increasing Tax Levy Each Year

CARTERET—This municipality's tax title liquidating program, once the subject of bitter political controversy, has been a most profitable undertaking. Initiated in June, 1942 the program to date has cost a total of \$42,990.50 and has resulted in the sale by the Borough of municipal-owned land in an aggregate of \$184,287. These sales in addition to bringing cash into the treasury have restored to taxation property on which taxes long had been delinquent and also on which, prior to the liquidation, it was necessary to pay taxes to the county. The property, therefore, while bringing in no revenue was also costing money. Tax Collector Alexander Comba, under whose guidance and supervision the program has proceeded, said yesterday that 98 per cent of the foreclosure work has been completed but Carteret still has three-quarters of a million dollars worth of property, to which it has title for sale. Thus, the expenses have nearly all been cleared up but the revenue to be derived has only been realized to about 20 per cent of the total. Foreclosure of 416 certificates at \$75 per certificate, cost the Borough \$31,200. Other expenses consisted of appraisal costs of \$3,878.50; brokerage commissions to nine different brokers of \$1,841; and engineering fees of \$6,071 for the total of \$42,990.50. Breakdown of Sales In 1942, the first year of operation, the program produced sales of \$2,400; in 1943, sales of \$31,822.50; 1944, sales of \$8,190; 1945, sales of \$32,119.50; and so far this year, sales of \$79,755 for the grand total of \$184,287. Of this total, \$130,770.92 has been collected already and the balance of \$53,516.08 is (Continued on Page 2)

Question of Pollution by New York Dump Still Skirted, Although Other Objections Told Amply

Editor's Note: This newspaper is unalterably opposed to the establishment of a dump by New York City across the water from us in Staten Island if the prospective dangers and conditions are as they are represented by opponents of the project. These same opponents claim the dump will pollute the water—and if this is true, we believe the Interstate Sanitation Commission should act as it has acted against Woodbridge and Carteret. From the evidence at hand, it appears that these two municipalities have been discriminated against by the Commission and that New York has been permitted to pollute the water for the past two years without hindrance. Statement of this position has brought the two letters printed herewith in their entirety. The reader should remember we have not argued that the new dump should be allowed, as our correspondents attempt to indicate, nor do we feel that we should have become involved in a long and expensive fight solely on the basis of hearing one side of the controversy only. The first letter is from Dr. Natale Colosi, a member of the Interstate Sanitation Commission, and the second from Art O. Hedquist, executive secretary of the Staten Island Chamber of Commerce. "My attention has been called to the Friday, August 18, 1946 issue of the Carteret Press in which were published a news-item and some comment on the garbage dump at Great Kills and the proposed one at Fresh Kills, Staten Island. Under ordinary circumstances, I would not take the time to discuss some of the published statements, but I feel that this communication might serve the cause of public health and, consequently, I gladly undertake the task. "I must dismise, a priori, your news-item which depicts the Great Kills garbage dump as totally free from rats, flies, stench, and other well-known objectionable and dangerous characteristics of such a dump. Granting Mr. Stevenson's estimate, as reported by you, that "of the 20,000 cubic yards of waste emptied daily in the area no more than 2% of it is putrescible matter," that 2% would be equal to 400 cubic yards or 400,000 (close to one-half million) pounds of putrescible matter, dumped daily. Ordinarily, however, municipal (Continued on page 3)

N. Y. Dump Is Target Of Unions

Organized Labor Joins Turk Group to Fight Staten Island Plan

CARTERET—An organized drive by local labor unions to augment the opposition of the municipal government to the establishment of a dumping ground in Staten Island, is now under way. The International Union of Mine, Mill and Smelter Workers, Local No. 837, composed of employees of the United States Metals Refining Company was the first group to act, and it is understood that condemnation of the plan projected by New York City to unload its refuse in the meadows just across the water from Carteret, will also be levelled by other affiliates in Carteret of the CIO. Councilman John Turk, president of the Borough Council who has spearheaded the opposition in New Jersey, said today he expects to meet with Attorney General Walter D. Van Riper in Newark shortly after Labor Day in an effort to obtain his help in combatting the plan. Mr. Turk heads a New Jersey Committee, consisting of representatives of Woodbridge, Perth Amboy, South Amboy, Rahway, Linden and Carteret, which has solicited action by the State to stop New York's Staten Island plan. "We have every reason," said Mr. Turk, "to expect the full assistance and cooperation of the State and Mr. Van Riper. It is, however, for any reason, this help is not forthcoming, we are prepared to fight this thing ourselves, and all of the municipalities are agreed."

Seek Wide Aid The labor unions have petitioned the Attorney General and Governor Edge to oppose New York on the grounds the dumping ground will endanger the health and welfare of Carteret workers and residents. The U. S. Metals Local, it is understood, will not only seek to enlist the aid of other locals in Carteret but also the Middlesex County and New Jersey organizations as well as the Greater New York CIO Council. The New Jersey opposition is working with a group of prominent Staten Island residents who are fighting the plan.

Greenwald in Warning Many Houses Offered Are Not Worth Price

CARTERET—A resolution urging the mayor and the council to take immediate action to provide housing for returned servicemen in Carteret, was drawn up at a meeting of Star Landing Post, 2314, Veterans of Foreign Wars, Tuesday. Although the type of housing was not mentioned, it is understood the group favors the temporary housing projects such as are now being erected in Woodbridge Township from former Army barracks. A spokesman of the VFW said today that many veterans and their families are now living in acutely overcrowded conditions "as the only available living space they could find was with parents or in-laws." Commander William Greenwald urged veterans to be exceedingly cautious when buying new homes as "unscrupulous speculators use poor workmanship, faulty materials and substitute low-grade fixtures in the dwellings they build." He especially warned them to have contracts inspected by attorney before signing any which may be loosely drawn. Oppose S. I. Dump The Post also went on record as strongly opposing the proposed garbage dump in Staten Island, the site of which is across the Arthur Kill from Carteret. A stand was also taken against the prevalent black market. Further plans were made for the amateur boxing bouts to be held September 19 at the high school stadium. Preliminary bouts will begin at 8:30 o'clock. Thomas Gerty is in charge of reserved

Best of Attention, Free, Certain For Middlesex Polio Victims

NEW BRUNSWICK—Middlesex County residents can be assured that anyone in this County stricken with infantile paralysis will be given the very best of care immediately upon diagnosis of the case by his physician. In previous years Middlesex County found itself in the position of a number of other counties in not having a hospital available to care for polio patients. However, through the efforts of the Middlesex County Chapter of The National Foundation for Infantile Paralysis, and the cooperation of the Board of Freeholders, the Middlesex County Polio Centre, Georges Road, North Brunswick, was opened last summer to care for all infantile paralysis cases in this county. Polio Centre is the only hospital in the State which has been set up for the exclusive care of infantile paralysis patients. The nurses in the staff have been trained in handling infantile paralysis cases. Dr. Robert L. McKiernan, superintendent, is in charge of the hospital. Miss Helen Adams, the resident physiotherapist, is a graduate of Bouve Boston School for Physical Education. She was formerly connected with the Hospital and Home for Crippled Children, Newark. In Charge of Hospital Polio Centre is a county institution managed by a Board of Governors comprised of the following: William Schwartz, New Brunswick, president; Dennis Fitzgerald, Carteret, vice-president; Mrs. Olga Becker, Laurence Harbor, secretary; Mrs. Bernard Harbison, Ford, treasurer; Freeholder Anthony Gadek, Perth Amboy, Freeholder George Baler, New Brunswick, Dr. Robert L.
